

# Exercise: Translate Questions into Tasks

Rahul Purushottam Gaonkar (rpg283)

---

**“What are the most dangerous spots in NYC”?**

- Proxy Tasks: Proxy Task for dangerous is **“What are the spots in NYC with a high number of Fatalities and Injuries?”** [The definition of high can be different based on the analyst]
- Proxy Values: **Fatalities, Injuries, Latitude, Longitude**

**“Does the weather have an effect on collisions”?**

- Proxy Tasks: Proxy Task for weather is **“Does the wind speed, temperature and precipitation have an effect on collisions?”**
- Proxy Values: **Temperature, Precipitation, Wind speed, Date, Time**

**“How can we improve the situation”?**

- Proxy Tasks: Proxy Task for improve the situation is **“Analyzing the number of Fatalities and Injuries based on the cause of the collision?”**
- Proxy Values: **Fatalities, Injuries, Main Cause**
